

Cantina Puiatti a ITS CONTEST 2022

Cantina Puiatti è wine partner ufficiale di ITS Contest 2022 – *The Ark Of Creativity*, il concorso dedicato ai giovani creativi che è arrivato quest'anno alla ventesima edizione.

24 progetti di fashion e design di tutto il mondo, che lo scorso 9 e 10 settembre a Trieste si sono sfidati a colpi di creatività nel Salone Degli Incanti di Trieste di fronte a una prestigiosa giuria che, tra tanti, ha coinvolto anche Demna Gvasalia, direttore creativo di Balenciaga.

Sono diversi i punti di contatto tra Cantina Puiatti e ITS: il territorio (il Friuli), l'unicità, il carattere che viene dal luogo di appartenenza, la tecnica e lo spirito innovativo dei vini che si coniugano perfettamente con l'atmosfera di creatività di ITS Contest.

Cantina Puiatti at ITS CONTEST 2022

Cantina Puiatti is wine partner of ITS Contest 2022 – *The Ark Of Creativity*, the contest dedicated to young creatives that celebrates this year the 20th anniversary.

24 fashion and design projects from all over the world, which on 9 and 10 September, in Trieste competed with creativity in front of a prestigious jury, which will also include Demna Gvasalia, creative director of Balenciaga.

There are several points of contact between Cantina Puiatti products and the world of fashion: the refinement, the elegance, the innovative spirit of the products from the Friulian estate blend perfectly with the creative atmosphere of the ITS Contest.

Angelini Wines & Estates produces wines from different territories in Italy: the Val di Suga, Tenuta Trerose, San Leonino wineries in Tuscany, Cantina Puiatti in Friuli, Bertani, the historic Valpolicella winery and – since 2015 – also the San Sisto and Fazi Battaglia estates in the Marche.

Today, Angelini Wines & Estates totals 1700 hectares of owned land, 460 of which vineyards, with an overall production of about 4 million bottles a year.

Angelini Industries is a multinational industrial group founded in Ancona in 1919 by Francesco Angelini. Today, it is a solid and well-structured industrial company that employs about 5700 workers and operates in 26 countries all over the world, with revenues of 1.7 billion euros. Angelini Industries operates in the pharmaceutical, consumer goods, industrial technology, perfumery and skincare and wine sectors. Their investment strategy is aimed at growth; the constant commitment to research and development and an in-depth knowledge of the markets and business sectors make Angelini Industries one of the Italian companies of excellence in the sectors it operates in. The group is committed to reducing its environmental impact and to finding increasingly cutting-edge solutions in terms of circular economy, adopting the most advanced standards in the field of health and safety at work and the strictest processes to ensure the highest quality by checking the whole supply chain: from the certification of suppliers to checking raw materials, production processes, the finished product and packaging, through to checking samples at sales outlets. For 100 years the Angelini family has led the development of Angelini Industries with an entrepreneurial style typical of Italian family capitalism.
